DETAILED ACTION

Election/Restrictions

Claims 20 and 22-24 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 07/22/05.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18, 19 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 18, the last 7 lines set forth a geometric configuration by referencing the condition of “angular stiffness tracking”; however, this provides an indefiniteness and incompleteness since it fails to set forth the structure needed. The claim should be rewritten to provide the basic structure needed to provide “angular stiffness tracking”. In addition, --each of—should be inserted after “connecting” in line 7 and --one of-- after “of” in line 7 and “terminal element” in line 13, both occurrences, should be changed to --platform—and “portion” in line 18 should be --positions--.

Regarding claim 19, the phrase “the said pivot axis being determined by the location of said lines” fails to positively locate the line rendering the claim indefinite. Also, “platform” in line 7 should be --transmission structure--.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 18 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by
Wiegand, et al

Conclusion

Claim 21 would be allowable if rewritten in independent form correcting the 35USC112 deficiencies.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
